Summary

Junior MEARN Stack Developer with a background in Electronics & Communication Engineering. Experienced in building full-stack web applications using Angular, ReactJS, Node.js, Express.js, and MongoDB. Trained via NTI's MEAN Stack program; strong in REST API development, problem-solving, and frontend best practices.

Education

MEAN Stack Web Development (Train-to-Hire Program) **Jul 2025 - Nov 2025**

- National Telecommunication Institute (NTI).

Bachelor of Engineering, Electronics & Communication Engineering **Jul 2019 - Jul 2025**

- Tanta University, Egypt.

Work Experience

Project Acceptance Engineer / Project Manager, You Can Academy, Egypt. **Aug 2025 - Present**

- Led technical review and acceptance of developer/designer deliverables for an online courses platform.
- Evaluated monthly milestones and prepared performance reports to determine team compensation.
- Contributed to UI/UX guidance and coding support using Figma and MEAN Stack tools.

Freelancer, Remote. **Aug 2019 - Present**

- Developed MEAN Stack web applications including frontend UI and REST API backends for clients.
- Designed digital assets and UI prototypes using Figma and Photoshop.
- Delivered technical documentation, translations, and Excel-based business tools across multiple industries.

Selected Projects

Portfolio Builder **2026**

- Built a REST API for building portfolios with Node.js and Express.
- Implemented JWT authentication and secure password hashing.
- Integrated Cloudinary and Multer for image uploads and storage.
- Tech:** Node.js, Express.js, MongoDB, Mongoose, JWT, bcryptjs, Multer, Cloudinary
- Repo:** <https://github.com/Amany-Elsayed/Portfolio-Builder>

Chatting App. **2025**

- Built a real-time chat application with live message updates.
- Designed REST APIs and WebSocket communication for instant messaging.
- Tech:** Angular, Node.js, MongoDB, Postman
- Repo:** github.com/Amany-Elsayed/Chats-App

Exams Grading AI Model **2025**

- Developed an AI model that processes exam answers and automatically grades multiple submissions
- Implemented NLP techniques, text comparison, and scoring logic.
- Tech:** Python
- Repo:** github.com/Amany-Elsayed/AI-Grading-Model

Courses / Certificates

IBM SkillsBuild — AI & Development Courses

Apr 2026 – Apr 2026

- Build Your First Chatbot
- Unleashing the Power of AI Agents
- Explore Text to Speech Using IBM Watson
- Introduction to Large Language Models
- Summarizing Data Using IBM Granite
- Use Generative AI for Software Development

Information Technology Industry Development Agency (ITIDA).

Oct 2025 – Dec 2025

- ITIDA + Gigs Freelancing Program.

Benha Electronics Company.

Jul 2024 – Aug 2024

- Training in Electronic Communication and Embedded Systems.

American Academy for Engineering Training.

May 2023 - May 2024

- PHP Full Stack Diploma.

South Delta Electricity Distribution Company

Jul 2023 – Aug 2023

- Training in Electric Communication.

Skills

A) Technical Skills:

- **Frontend:** Angular, ReactJS, TypeScript, JavaScript, HTML, CSS
- **Backend:** Node.js, Express.js
- **Programming:** Python, C++
- **Databases:** MongoDB, Mongoose, MySQL, MongoDB Compass, Studio 3T
- **Tools & Platforms:** VS Code, Postman, Git/GitHub, Photoshop, Figma, Microsoft Office

B) Languages:

- **Arabic:** Native
- **English:** Very Good (B2/C1)

C) Personal & Soft Skills:

- Teamwork & Collaboration
- Problem-Solving & Self-Learning
- Time Management & Task Ownership
- Organization & Attention to Detail
- Presentation & Communication Skills
